CREF2016

THE CARIBBEAN RENEWABLE ENERGY FORUM

2016 Caribbean Renewable Energy Forum (CREF 2016)
October 17th-19th | InterContinental Miami
Miami, Florida

2016 Caribbean Renewable Energy Forum (CREF 2016)

New Energy Events is excited to announce that the 8th Annual Caribbean Renewable Energy Forum (CREF 2016) will take place at the InterContinental Miami, USA, from October 17th-19th.

Close to 500 stakeholders from 41 countries joined us in Miami for CREF 2015 for what was by far the biggest gathering of the regional energy market last year. CREF's strong following in the market speaks to the track-record of the conference as the single most important gathering of the regional energy market on the annual calendar. More significantly it speaks to the substantial opportunity to develop renewables across the Caribbean in a post-COP21 world.

If ever there was a time to engage in the Caribbean renewables market, and to participate in the largest gathering of that market on the annual calendar, it is now.
